PLEASE READ CAREFULLY!!!!

1. **FAT TIMING** We will use fully automatic timing (FAT) for running races in all of our area meets. FAT timing is the same timing used at our Olympic Trials and is used during the summer Olympics. It utilizes a sophisticated optical system accurate to 1/100,000 of a second. It also allows us to eliminate place of finish errors. There may be occasion where we may ask you to verify a participant in a picture however protesting place of finish and time utilizing this technology rarely if ever bears fruit. **Students will be given “hip numbers” to place on their left hip. These will be assigned and put on the students by volunteers at the starting area for each race. Once finished with the race they can be discarded in the trash. If they have made a final they will be issued a new hip number for the finals in the same manner. Anchor (last leg) leg runners on relays will be the only runners on a relay team to be issued a hip number.**

2. **RESULTS** For the first time we will be posting results of each area meet online we hope to have complete results online within 24 hours after the conclusion of each area meet. They can be found at one of the two locations on the Knoxville Youth Athletics Website:
